- Remote live streaming, playback, and download capable
- Desktop, Web, and Mobile App access
- Automatic vehicle ignition recording
- Exclusive cloud-based monitoring system
- Easily search video records by vehicle, date, time, and GPS location

### CruiseCam I

*We “pre-configure” each system to your specific vehicle, making sure it’s tested, configured, and ready for installation when it leaves our distribution center.*

# Monitoring Service

MVCS's exclusive vehicle camera monitoring system – “pings” vehicle systems and scans cameras for any operational or maintenance issues and our team delivers proactive Reports & Alerts to Operators!

“It is not enough to have a camera – it has to be working!”

The harsh and hazardous operating conditions require regular operational monitoring to ensure reliable performance.

**Monitoring Report: World Truck Towing**  
 Report Date: 17-Mar-2023  
 Monitoring Period: 03-Mar-2023 thru 17-Mar-2023

It's that time of year! Please remember to clean all exterior cameras frequently.  
 Additional:  
 222- cab cam misaligned  
 230- cab cam misaligned
